What is Amazon FBA?

Fulfillment by Amazon (FBA) allows sellers to store products in Amazon's warehouses. Amazon then picks, packs, ships, and provides customer service on your behalf — letting you focus on growing your business.

**Amazon operates in
20+ countries**

with millions of Prime members globally

Storage

Amazon stores your inventory in its global fulfilment centres

Shipping

Amazon handles packing & delivery — with Prime eligibility

Customer Service

Returns and support managed 24/7 by Amazon

Our Amazon FBA Services

Cockpit Education Ltd | cockpitedu.com

Product Research

Identify profitable niches and high-demand products using market data and competitor analysis.

Listing Creation

SEO-optimised titles, bullet points, and descriptions that convert browsers to buyers.

Inventory Management

Keep stock levels optimal — avoiding costly stockouts and excess storage fees.

Logistics & Shipment

Prepare and send inventory to Amazon fulfilment centres correctly and efficiently.

Reviews & Reputation

Strategies to build a strong review profile and maintain seller health metrics.

Ongoing Consultancy

Regular reporting, strategic advice and account health monitoring for sustainable growth.
